

Join Us at the Austin Capital

March 12th 10:00am - 4:00pm

For TPAA'S

“BEAT THE HEAT” AWARENESS EVENT

Temperatures in Texas prisons have been reported as high as 149°F. These extreme temperatures are cruel and inhumane for the staff working in these conditions along with the ones living in these conditions.

Join us in bringing awareness to Government Officials as well as others. We need everyone's support! If the Bills (SB321) & (HB936) pass, TDCJ will be required to maintain temperatures between 65° and 85° degrees inside all Texas prison facilities.

We will have various speakers throughout the day, such as;

- Professor Ariel Dulitzky from The University of Texas at Austin
- Lauren Johnson from the ACLU
- Family Members
- Ex-Inmates
- And more...

Come experience 3 minutes of “heat” in our Mock Cell!

Are you brave enough to accept our “Beat the Heat” Challenge?

Let's join together to put an end to this TORTURE!

SUPPORT SB321 & HB936
